### RECENT PERSONAL PROJECTS

#### ENGLISH LEARNING PLATFORM

Building a video-based subscription platform using Petit Vue, Firebase, and responsive design to teach English to exchange students in Ireland.

#### SOUND ENGINEERING SITE

One-page interactive site exploring music production and sound facts, inspired by neal.fun. Focused on creative UX and engaging design.

#### CISCO PACKET TRACER NETWORK

Designed and implemented a network with 3 public and 5 private subnets using routers R1-R3, plus switches and endpoint devices.
